NOTES TO THE TAX TABLES

TABLES:
Tables are provided by the Zambia Revenue Authority for use by employers to work out how much PAYE to deduct or repay from chargeable income. There are two sets of tables namely;
Monthly Tables and Daily Tables.

MONTHLY TABLES:
The Monthly Tables are divided into two parts:
Table A shows the monthly and cummulative income taxable at zero per cent applicable to an individual. It also shows the rate of tax on the cummulative chargeable income.

Table B shows the chargeable income and the tax due for each month.

DAILY TABLES:

Daily Tax Tables are used where the payment period is less than five days, that is, for **casual employees** as defined by the PAYE Regulations . Where a worker is paid daily, the tax payable is arrived at by simply finding the tax payable for the particular amount paid. A casual employee is, by definition, any employee whose payment period is less than five days.
