USER GUIDELINES

FOR THE AIRCARGO EXPRESS DECLARATION

FOREWORD BY COMMISSIONER – CUSTOMS SERVICES

I am pleased to present the user guidelines for The Air Cargo Electronic Manifest – Express Declaration.

This feature will provide for automatic generation of an express declaration from an electronically lodged manifest.

This is expected to enhance tracking of consignments within the customs control zone, increase the processing efficiency and reduce the dwell time to clear goods at the international airports

The feature is a module on the ASYCUDAWorld system. The feature will allow for courier companies and other importers of goods that are deemed low value but where taxes and duties will have to be collected. With this implementation all waybills that fall under the mentioned category will require to generate a Simplified Express Declaration from the manifest.

The benefits derived are among others simplified processing of declarations, reduced dwell-time for importers, increased monitoring of dutiable goods that will translate into correct collection of government revenue.

For support, you can reach out to the Business Systems and Support team using the e-mail:

cust-helpdesk@zra.org.zm

AIRCARGO ELECTRONIC MANIFEST INTRODUCTION

The Zambia Revenue Authority is moving forward by Implementing the IATA Electronic Manifest at Airports.

All flights arriving from a destination outside of Zambia must deliver to Customs, a Cargo Manifest detailing all the goods onboard. Submitting of electronic manifests will be mandatory starting from the 16th of May 2024.

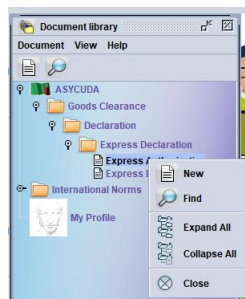

These manifests and related air waybills must be submitted on time by the airlines, freight forwarders and express operators or by their legal representatives in Zambia.

ASYCUDAWorld will provide for authorized businesses & Economic operators to generate & submit simplified declarations.

This document outlines the guidelines for generating and applying for express declarations.

1. APPLICATION AS AN EXPRESS OPERATOR

- 1.1. User Logs in with the credentials supplied by the ASYCUDAWorld functional team
- 1.2. Once logged in, the user can apply to the Station Management to be able to transact on ASYCUDAWorld as an express operator, this will be approved as per conditions set out at station level.
 - 1.2.1. The user will follow the path, GOODS CLEARANCE >>DECLARATION>>EXPRESS DECLARATION>>EXPRESS AUTHORISATION, Select **New**

1.2.2. The below window will open, and the user will be able to request to be able to transact on ASYCUDAWorld as an express operator
