VAT LIABILITY GUIDE

INTRODUCTION

The way VAT operates is that all goods and services supplied by a taxable supplier are standard rated unless expressly exempted or zero rated. The goods and services, which are exempt, are shown in The Value Added Tax (Exemption) Order while those that qualify for zero rating are shown in The Value Added Tax (Zero-Rating) Order. This booklet shows categories of goods and services, which qualify for VAT relief as either exempt or zero-rated. Businesses supplying goods or services in the “zero-rate” category can claim input tax on business expenses, while those in the “exempt” category cannot claim any input tax on business expenses.

In addition to reproducing the law with regards to The Value Added Tax (Exemption) and The Value Added Tax (Zero-Rating) Orders, this booklet gives examples of the types of goods and/or services that are considered either standard rated, exempt or zero rated. This advice is given as guidance only; suppliers are urged to base their judgment on whether or not to charge tax, on the text of the law. In cases of particular doubt or difficulty, the ZRA Call Centre, Taxpayer Service Centres or your nearest Domestic Taxes Office can be consulted.

EXEMPTIONS FROM VAT

GROUP 1 - WATER SUPPLY SERVICES

Law

The supply of mains water and sewerage services, excluding sewerage pump out services.

Explanatory notes

The supply of water and sewerage services from a water or sewer mains to a community is exempt provided it is supplied by a local authority or a water utility company, e.g. Lusaka Water and Sewerage Company. This exemption also includes disconnection and reconnection fees arising as a result of the non-payment of water or sewerage bills, and other services directly linked to the mains supply of water or sewerage services. The exemption under this group does not extend to the following supplies which are standard rated:

- the supply of water or sewer pumps, pipes, taps, tanks etc.;
- civil engineering work in connection with the supply of water and sewerage;
- drilling of boreholes;
- supply of electric or movable toilets;
- supply of sewerage pump out services;
- supply of distilled water, ice, and de-ionised mineral water; and
- bottled water.

GROUP 2 - HEALTH SERVICES

Law

(a) The supply of health and medical services by a registered medical doctor, optician, dentist, hospital or clinic registered under the Health Professions Act, 2009; and

(b) The supply of articles designed for use by persons with disabilities.

Explanatory notes

This group exempts all health and medical services supplied by registered hospitals, clinics, doctors, opticians and dentists. It also exempts the supply of equipment solely designed for use by the blind and handicapped persons.

- (c) Educational services provided to nursery or pre- school children.

Explanatory notes

This group exempts all educational services supplied to nursery or pre-school children, primary and secondary school students. For other students, i.e. post-secondary students, the exemption only applies when it is not carried out for profit. Thus a computer course (for adults) would be exempt when provided by a charity on a non-profit making basis but taxable when supplied by a computer consultancy as part of its business activities.

Educational supplies are taxable, for example writing paper, pens, pencils, school uniforms, school sports equipment, desks and chairs, etc.

GROUP 4 - BOOKLETS AND

NEWSPAPERS Law

- (a) Booklets, maps, and charts; and**

School workbooks and other educational texts in question and answer format with spaces for insertion of answers are taxable, unless the provision of the spaces is purely incidental to the essential character of the publication.

The exemption covers all printed maps and charts designed to represent the natural or artificial features of countries, towns, seas, the heavens, etc.
The exemption also covers newspapers and journals. These are issued in a continuous series under the same title with each issue dated and/or serially numbered.

This exemption does not include:

- pamphlets, brochures, forms, examination papers, and other similar commercial printed matter;

PART 2

The Value Added Tax (Zero-Rated) Order

ZERO-RATED SUPPLIES

GROUP 1 - EXPORT OF GOODS

Law

- (a) Export of goods from Zambia by or on behalf of a taxable supplier, where such evidence of exportation is produced as the Commissioner General may require;
- (b) The supply of freight transport services from or to Zambia, including transshipment but excluding ancillary services that are directly linked to the transit of goods through Zambia to destinations outside Zambia;
- (c) The supply of goods by a duty free shop, approved under regulation 51 of the Customs and Excise Act (General) Regulations, 2000, for export by passengers on flights to destinations outside Zambia;
- (d) The supply of goods, including meals, beverages, and duty free goods, for use in aircraft stores on flights to destinations outside Zambia;
- (e) The supply of aviation fuel;
- (f) The supply of services which are physically rendered outside Zambia;
- (g) The supply of an inclusive tour to a tourist by a tour operator or travel agent licensed as such under the Tourism and Hospitality Act, 2007, if the contract was entered into before 1st January, 2014, subject to such conditions as the Commissioner-General may require; and
- (h) International interconnection services

Explanatory notes

Item (a)

This relief permits an exporter to zero-rate any exports of otherwise standard rated goods that he arranges himself or have been arranged on his behalf. This relief does not apply to goods sold in Zambia to a customer who plans to export the goods independently. The documentary evidence required to support exportation includes:

- (a) copies of export documents for the goods, bearing a certificate of shipment provided by the Authority;
- (b) copies of import documents for the goods, bearing a certificate of importation into the country of destination provided by the customs authority of that;

(c) tax invoices for the goods exported;

(d) Proof of payment, made by the Customer, for the goods:

(e) documentary evidence, proving that payment for the goods has been made by the customer into the exporter's bank account in Zambia; and

(f) such other documentary evidence as the authorized officer may reasonably require.

Item (b)

This relief covers international road or airfreight transport services, i.e. freight transport services from Zambia to destinations outside Zambia or from outside Zambia into Zambia; and from outside Zambia in transit through Zambia to destinations outside Zambia. The relief also covers transshipment services and pipeline services.

However, this relief does not include ancillary services that are directly linked to the transit of goods through Zambia as they are standard rated.

Unless the Commissioner-General shall otherwise allow, a taxable supplier claiming that freight transport services are zero-rated on grounds that the services are directly linked to the exportation of goods from Zambia, importation of goods into Zambia or goods transiting through Zambia shall produce to an authorized officer-

- (a) copies of export documents for goods, bearing a certificate of shipment provided by the Authority; and
- (b) consignment notes;

as a mandatory requirement, and shall in addition provide any two of the following;

- (a) tax invoices indicating the starting point and destination of the trip undertaken;
- (b) transport waybills;
- (c) proof of payment by the customer for the services rendered; and
- (d) contracts or agreements in respect of the transportation of goods.

The Rule extends the requirement for providing evidence for zero rating to haulage services with regard to the "importation of goods into Zambia" or "goods transiting through Zambia"

Item (c)

This zero rating covers the sale of goods by duty free shops approved as such by the Commissioner of Customs and Excise at International Airports within Zambia.

Item (d)

This zero rating covers goods supplied to airlines for the shipment as aircraft stores on flights to destinations outside Zambia. The airlines are expected to keep records to demonstrate that the stores have been used on international rather than domestic

flights.

Item (e)

This is zero rated whether supplied to airlines for use on domestic or international flights.

Item (f)

This relief only applies when services (other than those covered by Group 2) are rendered outside Zambia. Thus, if a vehicle is repaired in Lusaka for a transport operator from Zimbabwe, tax is chargeable on the service. But if the repair is undertaken in Zimbabwe, there is no VAT liability in Zambia. But where the booking or payment for a service is made e.g. by an agent at Victoria falls in Zimbabwe for a service e.g. hiring a plane travelling in (or) from (or) to Zambia then that service is not zero rated by this provision but it is taxable (for more details on place of supply of services refer to paragraph 5.8 of the VAT Guide). The general rule is that services are regarded as supplied in Zambia if the supplier of the services:

- (i) Has a place of business in Zambia and no place of business elsewhere;
- (ii) Has a place of business elsewhere but his usual place of residence is in Zambia; or
- (iii) Has places of business in Zambia and elsewhere but the place of business most directly concerned with the supply of the services in question is the one in Zambia.

GROUP 2 - SUPPLIES TO PRIVILEGED

PERSONS Law

(a) Goods imported by the President.

(b) Goods imported by diplomats or a diplomatic mission accredited to the Republic of Zambia for the official purposes of that mission, to the extent that the foreign country grants reciprocal privileges to diplomats and to the diplomatic mission of Zambia in that country.

(c) The supply of goods or services to a donor in Zambia for the official purpose of that donor where evidence of purchase is produced by that donor or the Commissioner-General on behalf of the donor as the Commissioner-General may require.

(d) goods and services supplied to, or imported under, a technical aid programme or project executed by a written agreement between the Government of the Republic of Zambia and the donor, which are paid for through donor funding or funding from the Government where the programme or project is co-financed by the donor and the Government and the donor or contractor of the donor provides evidence of purchase of the goods and services pursuant to the agreement, as the Commissioner-General may require.

(e) Supplies or imports under a technical aid agreement providing for exemption from taxation, under the laws of Zambia -

- i. dated on or before 30th June, 1996; or
- ii. approved by the Minister responsible for Finance; and

(f) Goods or services supplied to or imported by a developer for the purpose of developing infrastructure in a multi-facility economic zone or industrial park.

Explanatory Notes

Item (a)

This item zero rates goods imported by the President of the Republic of Zambia. Goods purchased within Zambia by the President are taxable at standard rate.

Item (b)

This item zero-rates goods imported by individual diplomats and diplomatic missions accredited to the Republic of Zambia. This zero rating is only available to diplomats and diplomatic missions whose sending country provides reciprocal tax relief to Zambian diplomats and the diplomatic mission accredited to their country of origin. The Ministry of Foreign Affairs has the reserved right to withdraw the tax relief to any mission or diplomat.

Item (c)

i. The zero-rating in this group applies to imported goods and services supplied from within Zambia for the official use of diplomatic missions, aid agencies and those under technical aid agreement;

ii. The zero-rating in this group will only hold if the goods and services are supplied on a valid purchase order issued by the Commissioner-General.

A valid purchase order must: -

- have the name of the mission or aid agency pre-printed;
- be serially numbered;
- indicate the date the purchase order is issued;
- contain adequate description of the goods or services being procured including quantity
- be signed by a responsible person approved for the purpose by the mission or aid agency;

The approving person should also certify on the Customs forms that the goods are imported for the official use of the mission or aid agency.

iii. The zero-rating in item (c) of this group is only allowed to missions whose country of origin provides similar tax relief to the Zambian diplomat and diplomatic mission accredited to their country. The Ministry of Foreign Affairs has powers to withdraw the tax relief entitlement accorded to a diplomatic mission.

Item (d)

“donor funding” means funding provided by a donor but does not include funding provided in the form of a loan to the Government of the Republic of Zambia.

The relief therefore excludes from Zero-rating, supplies procured using funds from loans contracted by the government for development purposes (developmental credit) but includes goods or services supplied under grants and credit agreements.

Supplies under technical aid agreements are zero-rated only when the technical aid agreement signed between the Government of the Republic of Zambia and the donor, expressly provides the relief. The zero-rating applies to the funds contributed to the project or programme by both the donor and the Government of the Republic of Zambia. Aid agencies or contractors of the donor should apply for the Local Purchase Order to the Commissioner General in order for the supplies made to them to be zero-rated (for details of a purchase order system refer to item c sub-item ii above). This enables the donor or aid agency to provide the supplier of the goods with a purchase order indicating the quantities, description and value of the goods and services. They should also indicate that the goods or services are paid for using donor or aid funds..

Item (e)

This item zero-rates goods imported by technical aid agencies to the extent that the technical aid agreement signed with the Republic of Zambia before or 30th June 1996 provides. It also extends to domestic purchases meant for the official use of the aid agency or for eligible employees of the aid agency if the technical aid agreement provides for total exemption from Zambian VAT.

Technical aid agencies eligible for this zero-rating should issue a purchase order to the supplier whenever they purchase taxable goods and services within Zambia (details of a valid purchase order are contained in item (c) sub-item (ii) above. (where there is doubt on the validity of purchase order, please consult the ZRA Advice Centre or nearest office).
